

MICHAEL & SUSAN DEBAY

San Dimas, California

We have been volunteers at Transport For Christ for 13 years, however, just recently God has made some enormous changes. We sold 95% of our worldly goods and are now full-time missionaries for the TA West Truck Stop at Milliken and the 10 Fwy in Ontario, CA USA. We are now living in a 5th wheel in San Dimas at an RV Park. In order to follow JESUS completely, we felt we needed to live as inexpensively as possible and devote all of our energies and time ministering to the truckers and the truck driving community and helping them grow in their faith. "Seek Ye first the kingdom of God, and His Righteousness and all these things will be added unto you." Mt. 6:33 is our Theme Scripture for the truck stop. My wife is a Christian artist where a lot of her paintings now hang at the chapel. Our son and daughter-n-law live in Arizona with our grandson, Brandon. Our daughter and son-n-law live in Adelanto with our 4 grandkids, Joseph, Josiah, Abbey and Jouquin. They are all following after the Lord. We are a musical family where we play violin, cello, recorder, keyboard, and guitar, and we all love to sing.

PRAYER REQUESTS

- *We need more ministry opportunities such as getting into other churches so we can share the ministry and so they can partner with us if they are so led. We will always need more chaplains who can be there at the chapel as our long term goal is to keep it open 24 hours a day. We also need chaplains who can teach the word of God as we could have bible studies every day and evening. (You have to remember that this is a small city with a revolving population everyday.)*
We would like to have a Truckers Appreciation Day in June and funds need to be raised, in advance, to accomplish this.
- *The spiritual warfare is unbelievable at the truck stop and if you go there, you can literally feel the presence of darkness and light, and because of this, we need to be covered daily with prayer by people who are REAL prayer warriors. We are desperate for your prayers as this is what will open up the hearts of the truckers and the doors for us to be able to minister to them. They come in so beat up from the road and from being away from their families for long periods of time. There are many temptations out there from drugs, prostitution, and homosexuality to name only a few.*
- *Of course we always need monthly financial support partners to be able to carry out this very important mission right in our own back yard.*
